I REALLY WANT TO DIE RIGHT NOW

THE END

Hello! I'm Kodaka.

In this chapter, I depicted a date with Yamato and Wil that might have happened at some time during the events of the previous chapters. While I was working on the main story, I didn't have any margin to squeeze in any date scenes (sweat). Maybe it's because I had decided not to have them reveal their true feelings during their relationship that there are no really sweet scenes between them. I remember thinking that I might include some scenes like that somewhere in the first volume and the beginning of the second, but during the ensuing months, I didn't know if publication would be suspended or if my editor would come and tell me, "It's about time to finish" (Smile). I didn't plan ahead at all and I thought it would be bad to continue that way, so I have a faint memory of squeezing something in at the end of volume one.

In the end, publication was suspended at some stage during the beginning of the second volume, so I got scared, but we communicated by cell phone and they let me continue working on it because there was still room for development. It's a boy's love story where the main character is a gay man who is surrounded by heterosexual characters. There are no other other gay couples in it, (nu,) but I'd be happy if you'd take a look at the main story too.
